One Operator, One Machine, Thousands Of Dies!

Do More in Less Time With Less People!

Innovation and user feedback allows us to introduce a new larger version of our highly successful E39 engraver. New ability to process multiple dies without operator intervention or interruption!

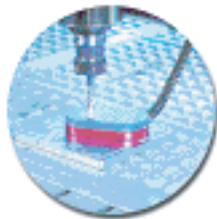

- e48** The E48 is able to process over 16 feet² (1.5m²) material.
 - e48** Automatic 8 tool changer or ATC. This means you can run die jobs for longer periods without supervision or user intervention
 - e48** Innovative Virtual Service System™ allows you to monitor the job for your internet connection any where in the world!
 - e48** So easy to use your graphic artist can be cutting dies within hours of installation and be totally independent after 48 hours of our training
 - e48** Includes the latest PC technology to run your machine.
- e48** Table comes with on board processor + flash memory, allowing it to run independent from the PC.
 - e48** PC can be located severa hundred feet away from machine, making design work less distracting
 - e48** PC comes with ToolPath, a post-processing software which is compatible with virtually any architectural or graphic design software, including Corel Draw and Adobe Illustrator.
 - e48** Quick start installation guide and easy-to-follow operator manual.
 - e48** 2-Day training program ensures your staff will be proficient with the program.
 - e48** Lubrication misting system included which promisses longer life for your tools, an increase in cutting efficiency, reduction in cutting time and the ability to cut small brass or aluminum dies with incredible accuracy and detail.

If you are looking for a profitable die making solution to for engraving high quality molds and dies in-house with little effort or time investment, we guarantee to provide the "know how" and training required so that you can successfully cut dies in hours not weeks or months.

● **SAVE TIME** ● **SAVE MONEY** ● **REDUCE WASTE** ● **IMPROVE ACCURACY**

*Input equals output. The operator of your E39 must have some basic mechanical common sense skills and excellent working knowledge of Windows 98 or NT/2000 as well as experience with at least one of the following, CorelDraw, Adobe Illustrator or another graphics software. Under these conditions the E39 becomes almost as easy to use as a printer! Specifications subject to change.
